

## Explanation of the different margins Html2pdf

---

Here's a little explanation with diagram of different margins:

```
<?php
    ob_start();
?>
<page backtop="7mm" backbottom="7mm" backleft="10mm" backright="10mm">
    <page_header>
        Page Header
    </page_header>
    <page_footer>
        Page Footer
    </page_footer>

    Page Content
</page>
<?php
    $content = ob_get_clean();
    require_once('./html2pdf.class.php');
    $pdf = new HTML2PDF('P','A4','en', false, 'ISO-8859-15', array(mL, mT, mR, mB));
    $pdf->writeHTML($content);
    $pdf->Output();
?>
```
